Customer Journey Map

The customer journey map illustrates the complete experience of a sales manager while using the **Cosmetics Insights Dashboard**. It captures the user's goals, interactions, positive experiences, challenges, and opportunities for improvement at each stage. Understanding this journey helped in designing a dashboard that is intuitive, interactive, and capable of providing valuable business insights for faster and more effective decision-making.

Customer Journey Map						
Scenario: [Existing experience through a product or service]	 Entice How does someone become aware of this service?	 Enter What do people experience as they begin the process?	 Engage In the core moments in the process, what happens?	 Exit What do people typically experience as the process finishes?	 Extend What happens after the experience is over?	
Experience steps What does the person (or people) at the center of this scenario typically experience in each step?	Open the Sales dashboard and view the home page with key metrics Explore sales, profit, customer, and product dashboards Apply filters to compare categories, brands, and regional sales	Review KPIs, sales trends, customer performance, and profit margins Search reports, share insights, and plan business strategies	Monitor the dashboard to check updated data and measure business growth Explore sales, profit, customer, and product dashboards Review KPIs, sales trends, customer performance, and profit margins	Monitor the dashboard to check updated data and measure business growth Open the Sales dashboard and view the home page with key metrics	Apply filters to compare categories, brands, and regional sales Search reports, share insights, and plan business strategies Apply filters to compare categories, brands, and regional sales	
Interactions What interactions do they have at each step along the way? • People: Who do they see or talk to? • Places: Where are they? • Things: What digital touchpoints or physical objects do they use?	Left/Right/Scroll: Sales, Profit, Customer, Product, Regional Clicks, KPI cards, navigation menu, filters Drag-and-Drop: Sales, Profit, Customer, Product, Regional	Story dashboard, performance, shared reports PDF reports, insights, presentations, shared dashboards	Updated dashboards, refreshed data, management dashboard Clicks, KPI cards, navigation menu, filters Story dashboard, performance, shared reports	Updated dashboards, refreshed data, management dashboard Left/Right/Scroll: Sales, Profit, Customer, Product, Regional	Drag-and-Drop: Sales, Profit, Customer, Product, Regional PDF reports, insights, presentations, shared dashboards Updated dashboards, refreshed data, management dashboard	
Goals & motivations At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")	Help me access the dashboard without any difficulty Help me compare products, regions, and customer segments Help me understand the dashboard's performance	Help me view accurate business data using the insights Help me identify trends and business opportunities	Help me access the dashboard without any difficulty Help me monitor performance regularly and measure business performance Help me understand the dashboard's performance	Help me compare products, regions, and customer segments Help me identify trends and business opportunities	Help me access the dashboard without any difficulty Help me compare products, regions, and customer segments Help me understand the dashboard's performance	
Positive moments What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting?	Dashboard opens without difficulty Interaction visualizes data easily to understand Filters simplify comparison across different categories	Trends and business opportunities become clear Decisions are supported by reliable data	Business performance can be monitored continuously Interaction visualizes data easily to understand Trends and business opportunities become clear	Business performance can be monitored continuously Dashboard opens without difficulty	Filters simplify comparison across different categories Decisions are supported by reliable data Business performance can be monitored continuously	
Negative moments What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?	How intense my data dashboard loading Too many filters may confuse first-time users Interpreting or understanding data can be challenging	Some performance require additional analysis Insufficient data available for other decisions	Dashboard requires regular data updates to remain useful Too many filters may confuse first-time users Some performance require additional analysis	Dashboard requires regular data updates to remain useful Some relevant key data dashboard loading	Some performance require additional analysis Dashboard requires regular data updates to remain useful Interpreting or understanding data can be challenging	
Areas of opportunity How might we make each step better? What ideas do we have? What have others suggested?	Improve dashboard loading speed Provide filter tips and navigation guidance Add advanced comparison and search options	Include forecasting and predictive analytics Enable one-click export of reports	Automate data refresh and performance alerts Provide filter tips and navigation guidance Include forecasting and predictive analytics	Automate data refresh and performance alerts Include forecasting and predictive analytics	Provide filter tips and navigation guidance Include forecasting and predictive analytics Automate data refresh and performance alerts	See an example
