Problem Statements

Date	15 July 2026
Team ID	
Project Name	Cosmetics Insights
Maximum Marks	2 Marks

Before starting the project, it was important to understand the problems faced by different users in the cosmetics industry. A sales manager needs an easier way to analyze sales performance, while customers want a simple way to compare products and choose the ones that best match their needs. However, the available information is often scattered and difficult to understand, making decision-making time-consuming. These problem statements helped us clearly identify the users' needs and guided the development of the Cosmetics Insights Dashboard in Tableau, which provides interactive visualizations and meaningful insights for better and faster decision-making.

Cosmetics Insight PS-1

I am	I'm trying to	But	Because	Which makes me feel
I am	I'm trying to	But	Because	Which makes me feel
A sales manager in a cosmetics company	To understand which products are selling well and how sales vary across different regions.	I have to go through multiple Excel sheets and reports to find the information I need.	The data is not available in one place with easy-to-understand visualizations.	Frustrated because it takes too much time to make business decisions.

Cosmetics Insight PS-2

I am	I'm trying to	But	Because	Which makes me feel
I am	I'm trying to	But	Because	Which makes me feel
A customer looking for cosmetics	To find products that suit my skin type, budget, and preferences.	There are too many products and it's difficult to compare them.	The available information is scattered and not presented in a simple, easy-to-understand way.	Confused and unsure about choosing the right product.

Problem Statement (PS)	I am	I'm trying to	But	Because	Which makes me feel
Cosmetics Insight PS-1	A sales manager in a cosmetics company	Understand product sales performance and identify regional sales trends.	I need to analyze multiple Excel sheets and separate reports to gather the required information.	The sales data is not centralized and lacks interactive visualizations for quick analysis.	Frustrated because it takes a lot of time to identify insights and make informed business decisions.
Cosmetics Insight PS-2	A customer looking for cosmetics	Find products that match my skin type, budget, and personal preferences.	There are too many product options, making it difficult to compare and choose the best one.	Product information is scattered across different sources and is not presented in a simple, user-friendly format.	Confused and uncertain about selecting the most suitable cosmetic product.
